Community Traffic Safety Program (CTSP)

Agreement for CTSP Grant Participation

Fiscal Period: October 01, 2018 – September 30, 2019

(NOT the same as a grant's authorized spending period during this Agreement Period)

This agreement is entered by the Southeast Alabama Highway Safety Office, located at the Enterprise State Community College, hereinafter referred to as "SEAHSO", and the governing entity of the law enforcement department of the following: Montgomery County Commission, hereinafter referred to as "AGENCY", for official participation in the Southeast Alabama Highway Traffic Safety Office Program grant and/grants, and are at allowable rates of pay, plus allowable FICA fringe, for traffic safety enforcement. The term of this agreement will be from **October 01, 2018 through September 30, 2019; however, the agreement period may not be the same as the grant's authorized spending period during the fiscal year.**

Upon approval of grant(s), funding and authorized spending periods will be made available to the AGENCY through the CORE reporting system by SEAHSO. **This Agreement for SEAHSO Grant Participation is not a notice of grant funding approval but is required for the AGENCY's receipt of grant funding.**

NO AGENCY will be approved to receive traffic enforcement funding without having entered into this agreement with the Southeast Alabama Highway Safety Office. NO AGENCY will be approved to receive enforcement funding without having an approved overtime policy adopted by its GOVERNING ENTITY. If an agency does not have an approved overtime policy, its GOVERNING ENTITY may agree to adopt the one attached to this agreement, which meets the minimum requirements set forth to participate in this program. If an AGENCY is awarded grant traffic enforcement funds, the authorized spending dates and amounts will be recorded on the CORE reporting system and will include information such as the grant's/grants' name and number, as well as the CFDA number that applies to each specific grant.

After the initial notification of funding allocation is made to the AGENCY, any adjustments in the funding level, time, and/or scope of this agreement and/or the grant(s); will only be accomplished through the CORE reporting system website by the SEAHSO.

SEAHSO has the authority to rescind the AGENCY's grant funding at any time, even without voluntary release of such funds by the AGENCY, due to non-compliance, non-expenditure, lack of submitted reimbursement claims, or for any other reason deemed necessary by SEAHSO.

Each agency will be responsible for keeping on file ALL paperwork pertaining to each grant that a reimbursement claim is filed. ADECA reserves the right to audit any agency at any time to assure that all documents that have been submitted are correct. Documents that should be kept on file by the agency are as follows; (1.) contract with SEAHSO, (2.) CORE Project Reimbursement Form, (3.) CORE Roll-Up form, (4.) CORE signed contact report(s) for each person claiming reimbursement hours on the grant, (5.) copy or electronic image of every citation and warning citation claimed on the grant, (6.) time sheets or time cards identifying regular hours worked and overtime hours worked on traffic grant, (7.) City or County overtime policy. The above-mentioned paperwork should be kept on file by each agency for no less than 3 years from the date of the grant enforcement period. Each agency will be notified if a file audit is requested. Any agency that unable to produce ALL forms required to verify the claims that have been submitted to the SEAHSO, will be required to refund ALL funds that were reimbursed on the grant in question.

Reimbursement claims (CORE forms) are encouraged to be submitted to SEAHSO once per month.

The Chief Law Enforcement Official will serve as the AGENCY Representative unless he or she delegates the responsibility. The Chief Law Enforcement Official may appoint a department representative to be the AGENCY Representative if he or she chooses. The AGENCY Representative will also serve as the primary contact person for

communications and correspondence between the AGENCY and SEAHSO. If the AGENCY Representative is designated as someone other than the Chief Law Enforcement Official, this person must be identified within this Agreement (or by notification of change if after this Agreement has been signed).

The AGENCY is solely and exclusively responsible for all expenditure documentation submitted to SEAHSO and shall ensure the accuracy of all such documentation and reports submitted, including but not limited to, hours reported, computation of salary/fringe benefits and reimbursement, and pay rates. The AGENCY shall hold harmless and indemnify SEAHSO from and against any loss, claim for reimbursement, or any claim what so ever in any way, relating to any error or omission in the reimbursements claimed, documentation and reports submitted, and/or grant funds distributed in reliance thereon.

The AGENCY, in performance of its operations and obligations, shall not be deemed to be an agent of SEAHSO, but shall be an independent contractor in every respect. The AGENCY is solely responsible for the acts and omissions of its employees and agents. SEAHSO assumes no responsibility the way or means by which the AGENCY performs its activities pursuant to this agreement

Subject to the terms of the grant, SEAHSO agrees to reimburse the AGENCY, subject to availability of grant funds, for the actual traffic enforcement worked under an SEAHSO grant project, provided the activity is documented in accordance program requirements, as set forth by SEAHSO, with final approval by ADECA, and in accordance with funding guidelines. All commitments for reimbursement shall be limited to the availability of grant funds.

The funds for this agreement were awarded by NHTSA and are passed through ADECA and SEAHSO. Therefore, all expenditures are subject to all federal and state laws, rules, and regulations, including LETS policy letters.

“Termination for Cause. If, through any cause, the Agency shall fail to fulfill in a timely manner its obligations under this Agreement, or if the Agency shall violate any of the covenants, agreements or stipulations of this Agreement, and such failure or violation is not corrected immediately. SEAHSO will immediately terminate this Agreement by giving verbal and written notice (email, etc.) to the Agency of such termination.

Memo

To: Donnie L. Mims, Administrator
From: Sherrill R. Thomas, Finance Director
Date: 9/12/2018
Re: OMB Uniform Administrative Procurement Requirements

The Office of Management and Budget adopted new Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards that became effective for non-Federal governmental fiscal years beginning on or after December 26, 2014, but delayed implementation of the new Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards to Fiscal Years beginning on or after January 1, 2018.

The County must adopt policies implementing the new requirements by October 1, 2018.

Attached are policies and procedures regarding the administration of federal funds for adoption by the County Commission.

These policies set forth the policies and procedures used by Montgomery County Commission (the County) to administer federal funds. The policy contains the internal controls and grant management standards used by the County to ensure that all federal funds are lawfully expended. Grant Managers, and the Finance Director are expected to review these policies to gain familiarity and understanding of the County's rules and practices.

Financial Management System

The County maintains a proper financial management system in order to receive both direct and state-administered grants and to expend funds associated with a grant award. Certain fiscal controls and procedures must be in place to ensure that all financial management system requirements are met. Failure to meet a requirement may result in return of funds or termination of the award.

1)Financial Management Standards

The standards for financial management systems are found at 2 C.F.R. § 200.302. The required standards include:

Identification

The County must identify, in its accounts, all federal awards received and expended and the federal programs under which they were received. Federal program and award identification must include, as applicable, the CFDA title and number, federal award identification number and year, name of the federal agency, and, if applicable, name of the pass-through entity.

Financial Reporting

Accurate, current, and complete disclosure of the financial results of each federal award or programs must be made in accordance with the financial reporting requirements.

Accounting Records

The County must maintain records which adequately identify the source and application of funds provided for federally-assisted activities. These records must contain information pertaining to grant or subgrant awards, assets, expenditures, income and interest, and be supported by source documentation.

Internal Controls

Effective control and accountability must be maintained for all funds, real and personal property, and other assets. The County must adequately safeguard all such property and must assure that it is used solely for authorized purposes.

“Internal controls” are tools to help program and financial managers achieve results and safeguard the integrity of their program. Internal controls should be designed to provide reasonable assurance that the following objectives are achieved:

- Effectiveness and efficiency of operations;
- Adequate safeguarding of property;
- Assurance property and money is spent in accordance with grant program and to further the Selected objectives; and
- Compliance with applicable laws and regulations.

Budget Control

Actual expenditures or outlays must be compared with budgeted amounts for each federal award.

2) Spending Grant Funds

Direct and Indirect Costs

Determining Whether a Cost is Direct or Indirect: Direct costs are those costs that can be identified specifically with a particular final cost objective, such as a federal award, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy.

Indirect costs are those that have been incurred for a common or joint purpose benefitting more than one cost objective, and not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved.

Costs incurred for the same purpose in like circumstances must be treated consistently as either direct or indirect costs.

Identification with the federal award rather than the nature of the goods and services involved is the determining factor in distinguishing direct from indirect costs of Federal awards. Typical costs charged directly to a Federal award are the compensation of employees who work on that award, their related fringe benefit costs, the costs of materials and other items of expense incurred for the Federal award.

The salaries of administrative and clerical staff should normally be treated as indirect costs. Direct charging of these costs may be appropriate only if all of the following conditions are met:

- Administrative or clerical services are integral to a project or activity;
- Individuals involved can be specifically identified with the project or activity;
- Such costs are explicitly included in the budget or have the prior written approval of the federal awarding agency; and
- The costs are not also recovered as indirect costs.

3)Determining Allowability of Costs

Expenditures must be aligned with approved budgeted items. Any changes or variations from the state-approved budget and grant application need prior approval from the state.

When determining how the County will spend its grant funds, the Grant Manager will review the proposed cost to determine whether it is an allowable use of federal grant funds *before* obligating and spending those funds on the proposed good or service. All costs supported by federal funds must meet the standards outlined in 2 CFR Part 200 (Subpart E). The Grant Manager must consider these factors when making an allowability determination.

- **Be Necessary and Reasonable for the performance of the federal award.** The Grant Manager must consider these elements when determining the reasonableness of a cost. A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision to incur the cost was made. For example, reasonable means that sound business practices were followed, and purchases were comparable to market prices.

When determining whether a cost is necessary, consideration may be given to:

- Whether the cost is reasonable and necessary for the federal program.
 - Whether the cost is identified in the approved budget or application.
 - Whether the cost aligns with identified needs based on results and findings from a needs assessment.
 - Whether the cost addresses program goals and objectives and is based on program data.
- **Allocable to the federal award.** A cost is allocable to the federal award if the goods or services involved are chargeable or assignable to the federal award in accordance with the relative benefit received. This means that the federal grant program derived a benefit in proportion to the funds charged to the program.
 - **Consistent with policies and procedures that apply uniformly to both federally-financed and other activities of the County.**
 - **Conform to any limitations or exclusions set forth as cost principles in Part 200 or in the terms and conditions of the federal award.**
 - **Consistent treatment.** A cost cannot be assigned to a federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been assigned as an indirect cost under another award.
 - **Adequately documented.** All expenditures must be properly documented.
 - **Be determined in accordance with general accepted accounting principles (GAAP), unless provided otherwise in Part 200.**
 - **Not included as a match or cost-share, unless the specific federal program authorizes federal costs to be treated as such.** Some federal program statutes require the non-federal entity to contribute a certain amount of non-federal resources to be eligible for the federal program.

- **Be the net of all applicable credits.** The term “applicable credits” refers to those receipts or reduction of expenditures that operate to offset or reduce expense items allocable to the federal award. Typical examples of such transactions are: purchase discounts; rebates or allowances; recoveries or indemnities on losses; and adjustments of overpayments or erroneous charges. To the extent that such credits accruing to or received by the state relate to the federal award, they shall be credited to the federal award, either as a cost reduction or a cash refund, as appropriate.

Part 200’s cost guidelines must be considered when federal grant funds are expended. As provided above, federal rules require state- and County-level requirements and policies regarding expenditures to be followed as well.

4)Federal Cash Management Policy/Procedures

The County will comply with applicable methods and procedures for payment that minimize the time elapsing between the transfer of funds and disbursement by the County, in accordance with the Cash Management Improvement Act at 31 CFR Part 205. Generally, the County receives payments on a reimbursement basis.

However, if the County receives an advance in federal grant funds, the County will remit interest earned on the advanced payment quarterly to the federal agency. The County may retain interest amounts up to \$500 per year for administrative expenses.

Federal grant funds will be maintained in insured checking accounts that are subject to the state requirements for public deposits under the SAFE program.

Payment Methods

The Grant Manager will request reimbursement for actual expenditures incurred under the federal grants. All reimbursements are based on actual disbursements, not on obligations.

Consistent with state and federal requirements, the County will maintain source documentation supporting the federal expenditures and will make such documentation available upon request.

To the extent the County receives advance payments of federal grant funds; the County will strive to expend the federal funds on allowable expenditures as expeditiously as possible.

5)Purchasing

Local Purchasing

- A. Pursuant to state law the County, when purchasing personal property or contractual services, shall give preference to commodities produced in Alabama or sold by Alabama persons, firms or corporations.
- B. The County will follow state laws for the procurement of property and services. The primary state procurement laws for Alabama Counties are:

- Alabama Competitive Bid Laws (Chapter 13B of Title 16, Code of Alabama 1975);
- Joint Information Technology Purchasing Agreement (Chapter 13B of Title 16, Code of Alabama 1975); and,
- Public Works Law (Title 39, Code of Alabama 1975).

To the extent allowed by state laws, the County will utilize state, local, regional and national purchasing agreements where appropriate for the procurement or use of goods and services.

Purchase Methods

The type of purchase procedures required depends on the cost of the item(s) being purchased:

Micropurchases

Procurement transactions that are not subject to the state procurement laws but exceed the aggregate amount of the federal micro-purchase threshold, will normally be obtained by utilizing price or rate quotes from two or more qualified sources. To the extent practicable, the County distributes micro-purchases equitably among qualified suppliers. Micro-purchases may be awarded without soliciting competitive quotations if the County considers the price to be reasonable.

Small purchase

This method is for purchases above the micropurchase threshold but below the Simplified Acquisition Threshold as defined by the Federal Acquisition Regulation. Price or rate quotations must be obtained from more than one qualified source. This doesn't mean formal bids and solicitations for quotes must be made; these procedures are meant to be simple and informal. Quotes may be obtained from a variety of simple sources, e.g., Internet search, vendor price listing, verbal quotes, etc.

Sealed Bids (Formal Advertising)

For purchases over \$50,000, bids are publicly solicited, and a firm fixed price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming with all the material terms and conditions of the invitation for bids, is the lowest in price. The sealed bid method is the preferred method for procuring construction, if the following conditions apply:

- A complete, adequate, and realistic specification or purchase description is available;
- Two or more responsible bidders are willing and able to compete effectively for the business; and
- The procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the basis of price.

If sealed bids are used, the following requirements apply:

- Bids must be solicited from an adequate number of known suppliers, providing them sufficient response time prior to the date set for opening the bids, and for state, local, and tribal governments, the invitation for bids must be publicly advertised;
- The invitation for bids, which will include any specifications and pertinent attachments, must define the items or services in order for the bidder to properly respond;
- All bids will be opened at the time and place prescribed in the invitation for bids, and for local and tribal governments, the bids must be opened publicly;
- A firm fixed-price contract award must be made in writing to the lowest responsive and responsible bidder.
- Any or all bids may be rejected if there is a sound documented reason.

Competitive Proposals

The technique of competitive proposals is normally conducted with more than one source submitting an offer, and either a fixed price or cost-reimbursement type contract is awarded. It is generally used when conditions are not appropriate for the use of sealed bids. If this method is used, the following requirements apply:

- Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals must be considered to the maximum extent practical;
- Proposals must be solicited from an adequate number of qualified sources;
- The entity must have a written method for their evaluation and selecting recipients; and
- Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered.

The County may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated, and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

Noncompetitive Proposals

Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source and may be used only when one or more of the following circumstances apply:

- The item is available only from a single source;
- The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation;
- The federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the County; or
- After solicitation of a number of sources, competition is determined inadequate.

With any of the above methods, the procurement standards also emphasize contracting with small and minority businesses, women's business enterprises and labor surplus area firms. A

nonfederal entity must ensure these firms are used when possible. Methods used to ensure their inclusion include placing these businesses on the vendor list, soliciting pricing from them when they are potential sources, breaking up projects or orders into smaller tasks to permit participation by these firms or requiring contractors to follow these guidelines for subcontracts.

As previously mentioned, regardless of what method is used and decision made, documentation must be kept of the procurement, *e.g.*, maintaining printouts of Internet searches for quotes or documenting in a memo the reasons for acceptance or rejection of bidders in sealed bids or competitive proposals

Full and Open Competition

All procurement transactions must be conducted in a manner providing full and open competition consistent with 2 C.F.R. §200.319. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, or invitations for bids or requests for proposals must be excluded from competing for such procurements. Some of the situations considered to be restrictive of competition include but are not limited to:

- Placing unreasonable requirements on firms in order for them to qualify to do business;
- Requiring unnecessary experience and excessive bonding;
- Noncompetitive pricing practices between firms or between affiliated companies;
- Noncompetitive contracts to consultants that are on retainer contracts;
- Organizational conflicts of interest;
- Specifying only a “brand name” product instead of allowing “an equal” product to be offered and describing the performance or other relevant requirements of the procurement; and
- Any arbitrary action in the procurement process.

Conflict of Interest Requirements

The County maintains the following standards of conduct covering conflicts of interest and governing the actions of its employees engaged in the selection, award and administration of contracts.

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a federal award if he or she has a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract.

The officers, employees, and agents of the County may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts, unless the gift is an unsolicited item of nominal value.

FINANCIAL MANAGEMENT POLICY MONTGOMERY COUNTY COMMISSION

Statement of Purpose: The purpose of this document is to serve as an all-encompassing financial management policy for Montgomery County, Alabama (the "County"), which will provide direction for the Montgomery County Commission (the "County Commission") in budgeting, reserve balances, debt management and accounting, auditing and financial reporting practices. Moreover, this will provide recommended methods to accomplish and adhere to the proposed procedures contained herein. This policy document will create, manage and ensure ongoing adherence to a purposeful, planned and deliberate set of guidelines to create both operating and restricted accounts.

ARTICLE I BUDGETARY POLICY PROCEDURES

Section 1. Budget Preparation. The County Commission prepares an annual budget for each fiscal year of the County. The budget process begins in May of each year when the heads of the various county departments are asked to prepare and submit budget requests for the immediately succeeding fiscal year. The departmental requests are submitted to and reviewed by the Finance Director upon receipt thereof (usually in June or July) and department public hearings are conducted in July and August to provide an opportunity for departments to present information on their budgets and any interested person to offer comments with respect to the proposed budget. Following the hearings, the County Commission may modify any departmental budget request to such extent as it deems appropriate.

Section 2. Revenue Estimates. Budgeted revenues are based on estimated current revenue trends. No projected growth is factored into the budgeting process. Revenue estimates are prepared in July using actual collections to date and estimates for the remaining months.

Section 3. Adoption of Budget. The County Commission is required to adopt the annual budget not later than September 30 of each year. The appropriations must not exceed the total revenues and reserves available for appropriation. Expenditures may not legally exceed appropriations. Adjustments to the Budget during the fiscal year must be approved by the County Commission. Any changes must be within the revenues and reserves estimated to be available.

Section 4. Budgeting Integration. Formal budgeting integration is used during the fiscal year as a management control device for the County's General Fund, Special Revenue Funds, Debt Service Funds and Capital Project Funds. The budget is adopted on a departmental "line-item" basis consistent with generally accepted accounting principles. Budget control is maintained at the departmental line-item level by the encumbrance of estimated purchase amounts prior to the release of purchase orders to vendors.

ARTICLE II DEBT MANAGEMENT POLICY

Section 1. Purpose. The purpose of this policy is to establish the guidelines for the issuance of debt by the County. Debt levels and the related annual debt service expenditures are important long-term obligations that must be managed with available short and long-term resources. This policy also addresses the level of indebtedness that the County can reasonably expect to incur without jeopardizing its existing financial position.

Adherence to a debt management policy, along with the utilization of other sound and prudent financial practices and the County's other financial policies, will assure the lending market that the County is well managed and will meet its obligations in a timely manner.

Section 2. Principles. The County's debt management policy seeks to encourage the following principles:

- (i) Complete payment of principal and interest on all outstanding debt.
- (ii) The payment of County debt will be secured by full faith, credit and taxing power held by the County, in the case of general obligation warrants and by the pledge of specific, limited revenues in the case of revenue warrants. The County may also issue warrants through a public building authority (or other appropriate issuer) secured by an annual appropriation lease (or other revenue source). On occasion the County or a political subdivision thereof may serve as a conduit to other issuers. The County will not pledge revenues to these conduit issuers and will have no obligation, moral or legal, to repay conduit debt issued under the authority of the County, except as approved by the County Commission.
- (iii) Principal and interest retirement schedules will be constructed to: (1) achieve a low borrowing cost to the County, (2) accommodate the debt service payments of existing debt, and (3) respond to market condition at the time of sale.
- (iv) Factors which the County will consider prior to the issuance of debt include:
 - a. Does the useful life of assets being financed exceed the term of the financing?
 - b. Are financial resources available, sufficient and reliable to service both the existing and new debt?
 - c. Will the issuance of debt adversely affect the County's credit ratings, and if so, how can that best be mitigated?
 - d. The County will strive to manage its debt level, operating performance, reserves, and management practices to maintain strong credit ratings, in order to minimize its cost of capital. As of September 2018 the County's general obligation debt is rated S&P: AA and Moody's: Aa1.
- (v) The County reserves the right to conduct a negotiated or competitive sale in the future depending on market conditions. All methods of sale are subject to County Commission approval.

Section 3. Planning and Performance. Debt management means adopting and maintaining financial plans for both the issuance and repayment of debt. Planning for the repayment of debt will include analysis of the operating budget to determine if the fund will incur the additional debt service required by the new debt.

Section 4. Use of Short-Term and Long-Term Debt. Short-term debt should be limited to borrowing to cover short-term, temporary cash flow shortages within the County's fiscal year through the use of tax anticipation notes in those instances where there is an inadequate level of cash flow, or through the use of bond anticipation notes when cash is required to initiate a capital project prior to the receipt of

bond proceeds. The County Commission should manage the County's finances so as to avoid the use of short-term debt when possible.

Long-term debt should be issued for the acquisition, construction, or improvement of land, buildings, infrastructure, and public improvements when the use of debt is appropriate and within the principles outlined above. Current year budget appropriations and accumulated reserve funds may be used to minimize the amount of long-term borrowing that is required, but, keeping in mind that the County must maintain adequate liquidity and reserves.

Section 5. Purpose of Debt. General obligation debt and annual lease appropriation debt funded by general fund receipts and other appropriate sources shall be used for projects that provide a general benefit to County residents and that cannot otherwise be self-supporting. Debt incurred for use by an enterprise fund, even if backed by a general obligation pledge of the County, shall be self-supporting and repaid solely from the revenues of such fund, unless a general benefit to County residents can be demonstrated.

Section 6. Repayment of Debt. The County Commission will conservatively project the revenue sources that will be utilized to repay any debt, and will analyze the impact of both the additional debt service as well as any additional operating expenses resulting from the improvement, to determine if new debt should be issued and to structure the appropriate repayment terms for each debt issue.

Section 7. Use of Variable Rate Debt, Balloon Payments, Derivative Products, etc. The County Commission recognizes the use of variable rate debt, balloon payments, derivative products such as interest rate swaps, carries additional risks. While this policy does not preclude the use of such options, additional considerations apply:

- (i) Generally, fixed rate debt should be preferred over variable rate debt. However, at times there may be considerations which favor variable rate debt. If variable rate debt is utilized, it should be limited to no more than 20% of the County's total debt.
- (ii) Balloon payments pose future refinancing, and interest rate, risks. Before incorporating balloon payments into a financing structure, the County should consider its ability to pay the balloon payment from its reserves in the event a refinancing was not available or advantageous. The size of the balloon payment, its timing and the window of opportunity to refinance prior to the balloon, are all relevant considerations.
- (iii) The use of derivative products such as an interest rate swap is strongly discouraged unless there are significant, compelling reasons to consider. In the event a swap is being considered, the County will engage the services of a highly qualified swap advisor.

ARTICLE III RESERVE BALANCES POLICY

Section 1. Purpose. The County Commission believes that sound financial management requires that sufficient funds be maintained by the County for unanticipated expenditures and revenue shortfalls during the course of the fiscal year as may be caused by economic downturns in local/state/federal levels, natural disasters, and other unforeseen circumstances. Maintaining such funds will help sustain the stability of the County's finances and reduce the need for short-term borrowing.

Section 2. Objective. The County Commission's objective is for twenty-five percent (25%) of general fund budget expenditures to be set aside as a reserve in a planned and consistent manner and that these moneys may not be spent for regular County expenditures in an effort to maintain the County's creditworthiness.

Section 3. Reserve Balance Expenditures. The reserve balances will be established by the County Commission for the purpose of covering unanticipated revenue shortfalls and paying non-recurring, unanticipated expenditures and capital expenditures of the County or as otherwise approved by the County Commission. To this end, the County Commission will only use the reserve balances to alleviate unanticipated short-term budgetary issues such as revenue shortfalls or unforeseen expenses. Any expenditure of the reserve balances by the County Commission for such purposes shall require a majority approval of the County Commission members upon 30 days' notice to the media.

Section 4. Reserve Fund Appropriations. Annually, the County Commission will propose funding of the contingency reserve balances through the budget to maintain the balance at the minimum amount. If expenditures reduce the contingency reserve balance below the established minimum amount, the County Commission will, as part of its approval of such expenditures, adopt a plan to restore the funds to the prescribed level.

ARTICLE IV CONSTRUCTION PROGRAMS FUND POLICY

Section 1. Purpose. The purpose of the Construction Programs Fund Policy is to establish and maintain dedicated funds to be annually budgeted, funded and used for new facilities or facility improvements. The overall goal of the Construction Programs Fund Policy is to order the County's fiscal expenditures while coordinating public investment with adopted plans and policies to properly manage the County's long-term investments.

Section 2. Capital Improvements Budget. The County will prepare and adopt a Capital Improvements Budget which will detail planned capital projects over two year, five year, and ten year periods. The Capital Improvements Budget will detail for each capital project, the estimated project cost, description and funding source. The first Capital Improvements Budget will be prepared for the fiscal year ending September 30, 2020.

Section 3. Capital Improvement Project Requirements. All capital improvement projects must be justified on the basis of providing a basic service, improving or rehabilitating deteriorating facilities, reducing costs, promoting jobs or economic development, or otherwise benefiting a large population segment or target area of the County. They must also be compatible with other planned projects and overall County development plans.

Section 4. Construction Programs Fund. The County shall establish one or more dedicated funds to service capital improvement projects undertaken by the County. Funds in the Construction Programs Fund(s) shall be restricted in use to capital improvement projects of the County.

Section 5. Funding Sources. The Construction Programs Fund(s) shall be funded through appropriations from the Commission on an annual basis. All capital improvement projects of the County shall be funded from the Construction Programs Fund(s) unless specifically financed from other sources such as County warrants, notes or other indebtedness, or other revenue sources specifically dedicated to such projects. All uncompleted projects must be reconsidered annually to determine if unspent funds need to be recommitted to a given project or reallocated to other planned projects.

Section 6. Budget Shortfalls. Notwithstanding anything herein to the contrary, in the event of an operating budget or general fund shortfall, the funds from the Construction Programs Fund(s) may be transferred into the County general fund to alleviate in whole, or in part, such shortfall.

ARTICLE V ACCOUNTING, AUDITING AND FINANCIAL REPORTING POLICY

Section 1. Purpose. The purpose of this Accounting, Auditing and Financial Reporting Policy is to establish and maintain high standards for accounting practices in the County, thereby enabling the County Commission, the County Administrator and the Finance Director to make sound decisions in preparing and adopting the County budget and managing County finances.

Section 2. Accounting. The accounting practices of the County will conform to Generally Accepted Accounting Principles for local governments as established by the Governmental Accounting Standards Board. The Finance Director will establish and maintain a system of fund accounting and shall measure financial position and results of operations using the modified accrual basis of accounting for governmental funds and the accrual basis of accounting for proprietary and fiduciary funds.

Section 3. Auditing. The County Commission complies with state mandated requirements that annual audits be conducted by the Alabama Department of Examiners of Public Accounts.

Section 4. Monthly and Annual Financial Reporting. Monthly financial reports are generated for the County Commission's management purposes. These will consist of:

- (i) **Budget Report** showing revenues collected and appropriations expended for the previous month with the variance from the budget amounts for each line item;
- (ii) **Statement of Revenue, Expenditures, and Changes in Fund Balance** showing revenues and expenditures and the difference between the two, the beginning fund balance for the period, the ending fund balance; and
- (iii) **Balance Sheet** showing County assets less liabilities and the fund balance.

The Finance Director will prepare an annual financial report. This report should include financial statements for each of the funds of the County, as well as appropriate additional disclosures as necessary for the complete understanding of the financial statements presented. In addition, the report should include a narrative discussion to explain how the County's current financial position and results of financial activities compare with those of the prior year and with budgeted amounts.

ARTICLE VI POST ISSUANCE COMPLIANCE POLICY

Section 1. Continuing Disclosure Requirements. The Finance Director shall maintain and ensure compliance with all continuing disclosure requirements as provided for by the County's outstanding debt obligations, including but not limited to, the posting of the County's audited financial statements to the Electronic Municipal Market System at emma.msrb.org, or other such repository as designated by the County's continuing disclosure requirements set forth in the County's outstanding debt obligations, or coordinating such filings with a dissemination agent engaged by the County for such purpose.

Section 2. Issuance of Tax-Exempt Obligations. Upon the issuance of tax-exempt obligations by the County, the Finance Director shall (i) confirm with bond counsel the filing of the Form 8038 or Form 8038G with the Internal Revenue Service, and (ii) obtain and keep the transcript of proceedings prepared by bond counsel.

Section 3. Recordkeeping. The following records shall be maintained by the Finance Directors with respect to the issuance of County obligations:

- (i) Transcript of proceedings;
- (ii) Documentation evidencing the allocation and expenditure of the proceeds of the obligations;
- (iii) Documentation evidencing the use of facilities financed with tax-exempt proceeds;
- (iv) Documentation relating to arbitrage rebate compliance; and
- (v) Continuing annual disclosures.

Section 4. Arbitrage Rebate and Arbitrage Yield Restriction. Relating to the issuance and monitoring of outstanding tax-exempt obligations of the County, the Finance Director shall:

- (i) Engage the services of an arbitrage/rebate consultant for assistance in compliance with any arbitrage related issues;
- (ii) Work with bond counsel, financial advisor and/or arbitrage/rebate consultant to monitor compliance with "temporary period expenditures" for expenditure of warrant proceeds, typically three years for new money obligations, and provide for yield restriction of investments or "yield reduction payments" if exceptions are not satisfied;
- (iii) Work with bond counsel and/or financial advisor to ensure investments acquired with tax-exempt obligation proceeds are purchased at fair market value. This may include use of bidding procedures under the regulatory safe harbor (Section 1.148-5(d) of the Regulations);
- (iv) Consult with bond counsel prior to the creation of funds which would reasonably be expected to be used to pay debt service on tax-exempt obligations to determine in advance whether such funds must be invested at a restricted yield;
- (v) Consult with bond counsel and/or financial advisor before engaging in post-issuance credit enhancement transactions (e.g., bond insurance, letter of credit) or hedging transactions (e.g., interest rate swap, cap);
- (vi) Consult with bond counsel, financial advisor, and/or arbitrage/rebate consultant to identify situations in which compliance with applicable yield

restriction depends upon subsequent investments (e.g., purchase of 0% SLGS from U.S. Treasury) and monitor implementation; and

- (vii) Work with arbitrage/rebate consultant to arrange for timely computation of rebate/yield reduction payment liability and, if an amount is payable, for timely filing of Form 8038T, Arbitrage Rebate, Yield Reduction and Penalty in Lieu of Arbitrage Rebate (or applicable successor form), and payment of such liability. Rebate/Yield Reduction payments are ordinarily due at 5-year intervals.

Section 5 Private Use of Facilities. "Private Use" means the use of warrant-financed property in a trade or business by any person other than a 501(c)(3) or state or local government entity, or by a 501(c)(3) entity in an unrelated trade or business. Examples of Private Use include:

- (i) Leases of government property to non-government entities;
- (ii) Noncompliant management or service contracts;
- (iii) Transfer of ownership to a private user of warrant financed facilities; and
- (iv) Naming rights arrangements with a private user.

While it is not anticipated that there will be a Private Use issue with respect to the warrant-financed facilities, in the event that a question arises with regard to a specific proposed Private Use, the Finance Director shall consult bond counsel as to whether such use constitutes a Private Use with respect to the outstanding tax-exempt obligations of the County. The Finance Director shall keep records of private use, if any, of facilities of the County financed with tax-exempt obligations. Private use of such facilities shall be reviewed once a year. If a change in private use occurs, bond counsel will be consulted to determine if remedial action is necessary.

FINANCIAL MANAGEMENT POLICY MONTGOMERY COUNTY COMMISSION

Section 3. Auditing. The County Commission complies with state mandated requirements that annual audits be conducted by the Alabama Department of Examiners of Public Accounts.

Section 4. Monthly and Annual Financial Reporting. Monthly financial reports are generated for the County Commission's management purposes. These will consist of:

- (i) **Budget Report** showing revenues collected and appropriations expended for the previous month with the variance from the budget amounts for each line item;
- (ii) **Statement of Revenue, Expenditures, and Changes in Fund Balance** showing revenues and expenditures and the difference between the two, the beginning fund balance for the period, the ending fund balance; and
- (iii) **Balance Sheet** showing County assets less liabilities and the fund balance.

The Finance Director will prepare an annual financial report. This report should include financial statements for each of the funds of the County, as well as appropriate additional disclosures as necessary for the complete understanding of the financial statements presented. In addition, the report should include a narrative discussion to explain how the County's current financial position and results of financial activities compare with those of the prior year and with budgeted amounts.

ARTICLE VI POST ISSUANCE COMPLIANCE POLICY

Section 1. Continuing Disclosure Requirements. The Finance Director shall maintain and ensure compliance with all continuing disclosure requirements as provided for by the County's outstanding debt obligations, including but not limited to, the posting of the County's audited financial statements to the Electronic Municipal Market System at emma.msrb.org, or other such repository as designated by the

County's continuing disclosure requirements set forth in the County's outstanding debt obligations, or coordinating such filings with a dissemination agent engaged by the County for such purpose.

Section 2. Issuance of Tax-Exempt Obligations. Upon the issuance of tax-exempt obligations by the County, the Finance Director shall (i) confirm with bond counsel the filing of the Form 8038 or Form 8038G with the Internal Revenue Service, and (ii) obtain and keep the transcript of proceedings prepared by bond counsel.

Section 3. Recordkeeping. The following records shall be maintained by the Finance Directors with respect to the issuance of County obligations:

- (i) Transcript of proceedings;
- (ii) Documentation evidencing the allocation and expenditure of the proceeds of the obligations;
- (iii) Documentation evidencing the use of facilities financed with tax-exempt proceeds;
- (iv) Documentation relating to arbitrage rebate compliance; and
- (v) Continuing annual disclosures.

Section 4. Arbitrage Rebate and Arbitrage Yield Restriction. Relating to the issuance and monitoring of outstanding tax-exempt obligations of the County, the Finance Director shall:

- (i) Engage the services of an arbitrage/rebate consultant for assistance in compliance with any arbitrage related issues;
- (ii) Work with bond counsel, financial advisor and/or arbitrage/rebate consultant to monitor compliance with "temporary period expenditures" for expenditure of warrant proceeds, typically three years for new money obligations, and provide for yield restriction of investments or "yield reduction payments" if exceptions are not satisfied;
- (iii) Work with bond counsel and/or financial advisor to ensure investments acquired with tax-exempt obligation proceeds are purchased at fair market value. This may include use of bidding procedures under the regulatory safe harbor (Section 1.148-5(d) of the Regulations);
- (iv) Consult with bond counsel prior to the creation of funds which would reasonably be expected to be used to pay debt service on tax-exempt obligations to determine in advance whether such funds must be invested at a restricted yield;
- (v) Consult with bond counsel and/or financial advisor before engaging in post-issuance credit enhancement transactions (e.g., bond insurance, letter of credit) or hedging transactions (e.g., interest rate swap, cap);

- (vi) Consult with bond counsel, financial advisor, and/or arbitrage/rebate consultant to identify situations in which compliance with applicable yield restriction depends upon subsequent investments (e.g., purchase of 0% SLGS from U.S. Treasury) and monitor implementation; and
- (vii) Work with arbitrage/rebate consultant to arrange for timely computation of rebate/yield reduction payment liability and, if an amount is payable, for timely filing of Form 8038T, Arbitrage Rebate, Yield Reduction and Penalty in Lieu of Arbitrage Rebate (or applicable successor form), and payment of such liability. Rebate/Yield Reduction payments are ordinarily due at 5-year intervals.

Section 5 Private Use of Facilities. "Private Use" means the use of warrant-financed property in a trade or business by any person other than a 501(c)(3) or state or local government entity, or by a 501(c)(3) entity in an unrelated trade or business. Examples of Private Use include:

- (i) Leases of government property to non-government entities;
- (ii) Noncompliant management or service contracts;
- (iii) Transfer of ownership to a private user of warrant financed facilities; and
- (iv) Naming rights arrangements with a private user.

While it is not anticipated that there will be a Private Use issue with respect to the warrant-financed facilities, in the event that a question arises with regard to a specific proposed Private Use, the Finance Director shall consult bond counsel as to whether such use constitutes a Private Use with respect to the outstanding tax-exempt obligations of the County. The Finance Director shall keep records of private use, if any, of facilities of the County financed with tax-exempt obligations. Private use of such facilities shall be reviewed once a year. If a change in private use occurs, bond counsel will be consulted to determine if remedial action is necessary.

Re: Contract for Electric Service with Alabama Power Company

I have reviewed your memorandum of August 15, 2018. I have also reviewed the following:

Contract for Electric Service with the Alabama Power Company
Rate XLPTL Light and Power – Time -of-Use-Large (Alternate)
Usage Report for the Detention Facility from June 2015-May 2018

Master Contract for Electric Service with the Alabama Power Company dated October 23, 2006.

As you are aware, there was much controversy about this contract at the last MCC meeting. However, if a majority of the Commissioners are in favor then I opine that the contract is acceptable as is and will be binding on all parties upon execution.

I am also of the opinion that the services provided for in this agreement are in the best interest of the public health, safety, education, and general welfare of the citizens of Montgomery County. I, therefore, see no reason why the agreement should not be executed if it is the desire of the Montgomery County Commission.

August 28, 2018

TO: Chairman Elton Dean – Montgomery County Commission

FROM: Paul H. Brown – Executive Director
Montgomery County Community Corrections

SUBJECT: Request for Future Commission Agenda Item –
Annual Renewal of Professional Services Contract for the E.V.E.N.
Domestic Violence Education/Intervention Program

On Tuesday, August 14th, the Montgomery County Community Corrections and Punishment Authority Board met and voted to recommend to the Commission that the Professional Services Contracts for the five E.V.E.N. providers be approved for Fiscal Year 2018-2019. The terms of the Professional Services contract remain the same as in the past eight yearly contracts at a rate of \$25.00 per hour.

Curtis Gage
Derrick Sanders
Beryl Sabb
Clifton Lovejoy
Bionca Lindsey

These are all current providers of the program and the proposed contract would be an annual renewal for 2018-2019 fiscal year only. The E.V.E.N. program is essentially funded by the proceeds paid by each participant which totals \$440.00 for each participant completing the course of instruction. I respectfully recommend that a renewal of the Professional Services Contract with each of the aforementioned facilitators for FY 2018-2019 be placed on the next (future) Commission Agenda for consideration/approval.

Respectfully submitted,

Paul H. Brown – Executive Director
Montgomery County Community Corrections

These services shall be funded by participant/referral fees and all provisions of this contract shall be contingent on the Montgomery County Community Corrections Department receiving sufficient numbers of fee paying referrals to operate and sustain the program. Unless directed by the Executive Director of the Department and with the exception of Court advocacy services, all services performed under this Professional Services Contract shall be performed on the premises of the Montgomery County Community Corrections Department, 301, Adams Avenue, Montgomery Alabama, 36104. The Montgomery County Community Corrections Department shall be responsible for providing adequate classroom and workspace as well as materials necessary for the participants in the program. Provider agrees to work with the Montgomery County Commission, the Montgomery County Community Corrections Department and consultants from the Montgomery, Alabama, Family Sunshine Center to provide the services mentioned herein and shall attend and participate in assigned in-service training to maintain minimum professional competency in the subject matter being provided to participants. It is understood that in-service training to maintain minimum level competency shall be determined by the Executive Director of the Montgomery County Community Corrections Department with consultation provided by the Montgomery, Alabama Family Sunshine Center. It is understood that failure to maintain a minimum level of proficiency and competency in the subject matter being provided to participants, as determined by participation in either assigned or substantially similar training may constitute grounds for termination of this Professional Services Contract.

The Montgomery County Commission agrees to pay to the provider a fee, of \$25.00 per hour for all services rendered under this Professional Services Contract. Fees shall be invoiced in increments of a quarter hour (15 minute periods), a half hour (30 minute periods) and/or whole hours. Modifications to the monthly schedule must be approved by the Executive Director and made in writing to be compensated.

A monthly schedule of services and assignments shall be posted or otherwise made available at the office of the Montgomery County Community Corrections Department at 301 Adams Avenue, Montgomery, Alabama, 36104.

Invoicing for services charged under this Professional Services Contract shall be submitted to the Montgomery County Community Corrections Department Executive Director on an approved Monthly Invoice Form to be provided by the Montgomery County Community Corrections Department and shall contain: The name and mailing address of the provider, the Federal Tax I.D. Number or Social Security Number of the provider, the date of service, the amount of time charged, the nature of the service rendered (class instruction, tutoring, orientation, intake, Court advocacy, reporting, etc.), a total calculation or amount invoiced for each service, an aggregate total of all charges for the month, and the providers signature attesting that the invoice is accurate and correctly reflects services actually performed and the date signed. Invoice forms may be submitted no more than twice per month. Invoice Forms for any preceding month's services are due no later than the fifth business day of the month following the month services are rendered. Upon verification of the accuracy of any invoice by the Executive Director, the invoice shall be forwarded to the Montgomery County Commission for payment. Payment shall be disbursed according to the course of normal business by the Montgomery County Finance Department (presently disbursements are made twice per month). Requests for expedited payment or exceptional disbursements will not be honored.

The contract period shall begin from date of signing this contract by both parties and shall end at the close of business, September 30, 2019. Actual services to be compensated under this Contract shall commence no earlier than October 1st, 2018. Either party shall have the right to terminate this contract. In any case, this Contract may be terminated, without prior notice upon notification of the Montgomery County Community Corrections Department that all available funds from participant fees and other authorized sources have been exhausted. The provider shall have the right to terminate the contract with the Montgomery County Commission provided 30 days written notice is provided to the Commission.

If a dispute arises out of or relates to this Agreement or its breach, the parties shall endeavor to settle the dispute first through direct discussions and negotiations. If the dispute cannot be settled through direct discussions or negotiations, the parties shall endeavor to settle the dispute by non-binding mediation. The location of the mediation shall be Montgomery, Alabama. Once a party files a request for mediation with the other party, the parties shall select a local mediator that is agreeable between the parties and the parties agree to commence such mediation within thirty (30) days of the filing of the request. Either party may terminate the mediation at any time after the first session, but the decision to terminate must be delivered in person to the other party and the mediator. Engaging in mediation is a condition precedent to any other form of binding dispute resolution. Disputes not resolved by mediation shall be decided in the Circuit Court of Montgomery County, Alabama between the Montgomery County Commission and Provider.

Donnie,

Thank you for your time yesterday and for allowing us to present your 2018-19 Medical Stoploss Renewal. I've attached an electronic copy for you use. As we discussed in our meeting yesterday, we market your risk to 15 different stoploss carriers from across the county. As a realist of that effort, Optum, your incumbent carrier was our best quote. I wanted to note a couple of reasons we made this recommendation

- **Experience Reward Option (ERO):** by renewing with Optum, you keep your ERO credit in play, this year we expect that number to be in the \$20,000 range. NOT renewing with Optum, or selecting another bid would forfeit that refund.
- 9.5% on the renewal is a fair offer based on loss ratio, experience and outstanding claims liability. Trend in this component of medical cost is averaging between 10-13% year over year. While 9.5% is fair, they did offer options to increase your risk for decreased premium.
 - I would recommend looking strongly at the \$260,000 deductible and taking advantage of the premium reduction. In studying your outstanding claims risk, you don't have anyone close to hitting \$250k so adding more risk would lead to minimal exposure.
- Our Marketing efforts were met with mixed results, most carriers declined to offer a quote due to the premium your case generates vs the expected risk. Basically they believe the premium to be too low and there for decline. We did have a few others offer but none were any more competitive than Optum's renewal offer.
- Alliance Insurance Group is asking for an increase in our fee. Our normal compensation schedule calls for an increase in year three. The \$15,000 we quoted this year will hold for 2 years going forward.
 - As requested, for comparison we serve several other county's. While this is public record, I prefer not to provide a copy of their proposal as their is Protected Health Information (PHI) in their proposal, just as there is in yours. Our fee varies for each group and based on different acquisition costs and administrative responsibilities.
 - Tuscaloosa County Commission
 - 1/1/18 Stoploss Fee:\$25,000
 - Cullman County Commission
 - 10/1/18 Stoploss Fee: \$12,000

If you have any other question or comments, please don't hesitate to reach out to Mike or myself. We look forward to continuing to serve the County.

Thanks,

Joey Marquez

MEMORANDUM

MTGY CO. COMMISSION
AUG 28 '18 PM4:39

TO : Mr. Donnie Mims
County Administrator

FROM : Sheriff Derrick Cunningham 
Montgomery County Sheriff's Office

SUBJECT : Temporary Reclassification for
Administrative Support Specialist

Attached is a memorandum from the City County Personnel Board in reference to our inquiry into the replacement and reclassification of the Rural Addressing Coordinator Position that was vacated by the retirement of Ms. Jane Brown earlier this year. Based upon their evaluation, the board is recommending that we temporarily reclassify the position of Ms. April Griffith, Administrative Support Associate, to the position of Administrative Support Specialist for a period of not more than 90 days. During this period, the personnel board will establish the requirements for the replacement of the Rural Addressing Coordinator position with those of the Administrative Support Specialist. Once those duties are converted, the Rural Addressing Coordinator position would be eliminated.

Please place this on the next agenda so we may address this matter with the Personnel Board as soon as possible.

MEMORANDUM

TO: Sheriff Derrick Cunningham, Montgomery County Sheriff

THUR: Carmen Douglas, Personnel Director 

FROM: Kaila Matney, Personnel Analyst

DATE: August 23, 2018

SUBJECT: Recommendation in Response to Requested Desk Audit

Our office received a request to perform a desk audit of the Rural Addressing Coordinator classification. According to the request memo, the position has been vacant since July 1, 2018 and the duties of the position had been being performed by the Support Services Division's Administrative Support Associate since March 2018.

Based on the information provided by the Sheriff and the employee currently performing the duties, we have determined that the employee is currently performing work higher than those included in her current classification. We would recommend that either those duties be removed from the employee immediately or that the employee be temporarily appointed to the classification of Administrative Support Specialist for a period of no more than 90 days while the situation can be resolved.

As for a long-term solution, we would recommend the Rural Addressing Coordinator classification be reallocated to an Administrative Support Specialist classification with the duties of the Rural Addressing Coordinator being assigned to that position. During the course of this review, it was determined that, while the duties of the Rural Addressing Coordinator are vital to the safety and security of Montgomery County citizens, the duties that do not overlap with administrative support duties only account for approximately 15% of the work. Reassigning those duties to a mid-level administrative support classification would ensure that the vital duties are accomplished and efficiency is maximized. The Rural Addressing Coordinator classification would then be abolished.

The Administrative Support Specialist position could then be filled through the competitive process; this competitive process would require that qualified applicants pass the Microsoft and Excel testing required of all Administrative Support Specialists.

Please review our recommendations and let us know how you would like to proceed. If you have any questions concerning this recommendation, feel free to call me. Thank you for allowing us to assist you with your personnel needs.
